- <https://www.ruby-toolbox.com/>

Új rails projekt létrehozása

- rails new <projektnév>
- **Gemfile** , bundle install
- RubyMine
- Projekt szerkezete

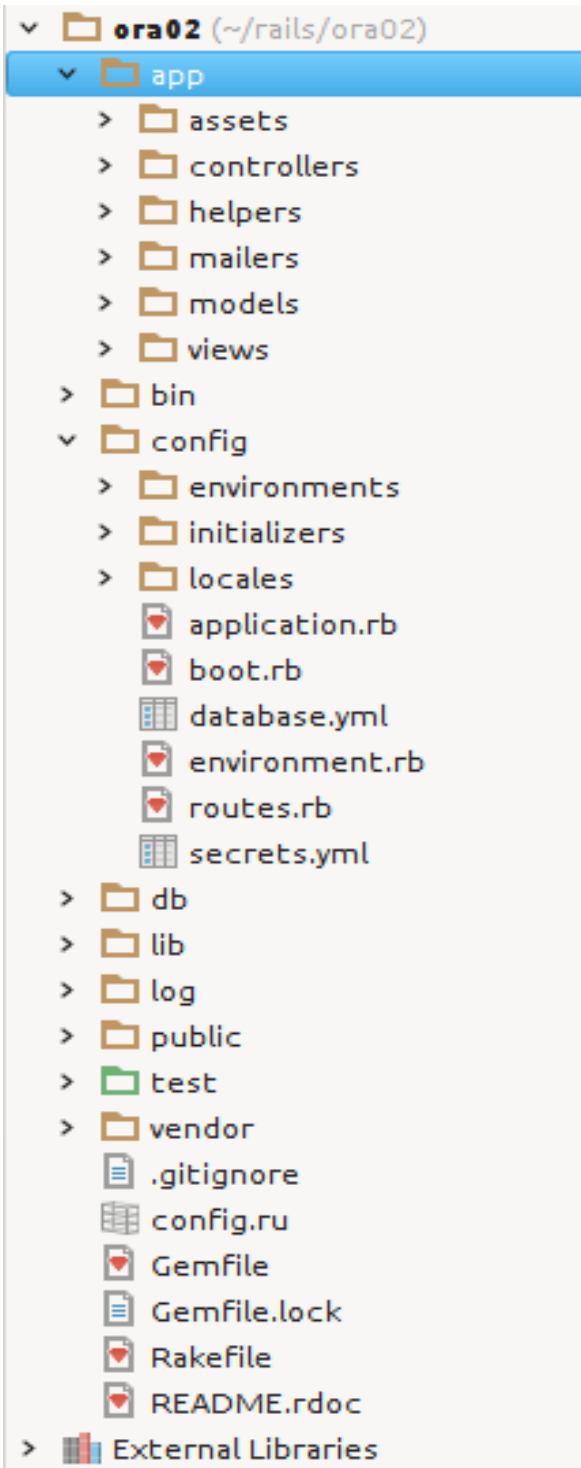

```
source 'https://rubygems.org'  
ruby '2.1.0'
```

```
gem 'rails', '4.1.4'  
gem 'sass-rails', '~> 4.0.3'  
gem 'uglifier', '>= 1.3.0'  
gem 'coffee-rails', '~> 4.0.0'  
gem 'jquery-rails'  
gem 'turbolinks'  
gem 'jbuilder', '~> 2.0'
```

```
group :development do  
  gem 'sqlite3'  
  gem 'rspec-rails'  
  gem 'better_errors'  
  gem 'binding_of_caller'  
end
```

```
group :production do  
  gem 'pg'  
  gem 'rails_12factor'  
end
```

```
group :doc do  
  gem 'sdoc', require: false  
end
```

MVC

- Model
- View
- Controller

Egyéb:

- Assets: image, css, js
- Helper
- routing

Static pages controller

- rails generate controller static_pages
- app/controllers/static_pages_controller.rb
- app/view/static_pages/...
- config/routes.rb

Gyakorlás! :)
